About Me

A skilled and dedicated web developer with 2.5 years of experience, seeking to leverage expertise in front-end technologies to contribute to innovative projects and further advance professional growth within a dynamic team environment.

Professional Experience

GTF Technologies

10/2023 - Present

Key responsibilities:

- Developed and maintained reusable React components and libraries, reducing duplication of efforts across multiple projects.
- Integrated RESTful APIs to fetch and update data, ensuring seamless data flow and improving application responsiveness.
- Collaborated closely with UI/UX designers to translate wireframes and mockups into responsive, interactive features.
- Optimized frontend performance by identifying and resolving bottlenecks, resulting in a 40% improvement in page load times.

TeamXML Technologies

Jan 2022 - Oct 2023

Key responsibilities:

- Designed and developed responsive landing pages for hotel booking, flight, and cab services using HTML5, CSS3, and JavaScript.
- Collaborated with backend developers to integrate MVC .NET framework, making landing pages dynamic with real-time data updates.
- Implemented user interface components and interactions to enhance user experience and usability.
- Ensured cross-browser compatibility and optimized performance for fast loading times.
- Conducted thorough testing and debugging to identify and fix frontend bugs and issues.

Languages

- Hindi, English
