EXPERIENCE

Frontend developer
Gtf technologies

📅 10/2023 - Till date   📍 Noida

- Develop and maintain responsive user interfaces using HTML5, CSS3, and JavaScript to ensure compatibility across various devices and browsers.
- Create dynamic web applications with React.js, leveraging its component-based architecture for maintainable and scalable code.
- Utilize Redux for state management in complex React applications, ensuring consistent application behavior.
- Implement design libraries such as SASS, Bootstrap, and Tailwind CSS to build visually appealing and user-friendly interfaces.

Frontend developer
TeamXML

📅 01/2022 - 10/2023   📍 Jaipur

- I started my journey as a Frontend Developer at TeamXML Technologies. During my time there, I created several web applications, including hotel booking, flight booking, and bus booking platforms. I utilized best practices in web development to optimize website performance, achieving a page load time of under 3 seconds. Additionally, I developed and implemented responsive and user-friendly web interfaces.

Web developer Intern
PSS techno

📅 10/2021 - 06/2022   📍 Noida sector 63

- Here I leaned web development and create some project in different -2 domain e.g e-commerce, travel and real-estate.

EDUCATION

10th
